

## Student Associations Millennium Declaration

We, \_\_\_\_\_, hereby declare our support for the Millennium Development Goals (MDGs). We are committed to helping ensure that these eight measurable Goals, which aim to combat poverty, hunger, disease, illiteracy, environmental degradation and discrimination against women, are met by 2015.

Recognising that student associations have an important role to play in making the Millennium Development Goals a reality, we pledge to take the following actions:

- 1 Publicly declare our support for the Millennium Development Goals** by signing this declaration and announcing our support using campus media such as our website, newsletters and student newspapers.
- 2 Support the initiatives of campus groups** by helping them organize and host events, activities and projects geared at raising awareness and generating public support for the Millennium Development Goals on campus and in the community.
- 3 Work alongside student groups to bring our administration to sign the University, College, and Cégep Millennium Declaration.** We commit to encouraging our administration to capitalize on the important roles it plays at campus, community, and national levels.

The Millennium Development Goals can only be achieved with broad-based support amongst Canadians and other citizens in the world for the MDGs. As an influential association in an institution of higher learning, we will use every opportunity to help create awareness of the goals amongst our student population and surrounding community. We believe that by acting together, we can achieve the Millennium Development Goals by 2015.
